## **GUJARAT TECHNOLOGICAL UNIVERSITY**

BE – SEMESTER – VI (NEW).EXAMINATION – WINTER 2016

Date: 24/10/2016

Time: 10:30 AM to 01:00 PM Instructions:  1. Attempt all questions. 2. Make suitable assumptions wherever necessary. 3. Figures to the right indicate full marks.  Q.1 (a) What is JDBC? Explain the types of JDBC drivers? Write a code snippet each type of JDBC connection. (b) Explain JSF Standard Component in detail.  Q.2 (a) Explain the use of PreparedStatement with appropriate example. (b) What is filter? What is its use? List different filter interfaces with the important methods.  OR (b) Write a short note on JSF Facelets.  Q.3 (a) What is Server Socket? Explain in detail with an example. (b) Write a TCP Client-Server program to get the Date & Time details from Serven the Client request.  OR  Q.3 (a) What is Datagram Socket? Explain in detail with example. (b) Write a UDP Client-Server program in which the Client sends any string Server responds with Reverse string.  Q.4 (a) Explain JSP Tag library with example. (b) Explain Request and Response object in Servlet.  OR  Q.4 (a) Compare JSP with Servlet. (b) Write a Java Servlet to demonstrate the use of Session Management.  Q.5 (a) What is HQL? How does it differ from SQL? Give its advantages. (b) Explain the action tags used to access the JavaBeans from a JSP page vexample.  OR  Q.5 (a) Draw and explain the architecture of Hibernate. (b) Explain MVC architecture in detail with figure.

(b) Write a UDP Client-Server program in which the Client sends any string Server responds with Reverse string.  Q.4 (a) Explain JSP Tag library with example. (b) Explain Request and Response object in Servlet.  OR  Q.4 (a) Compare JSP with Servlet. (b) Write a Java Servlet to demonstrate the use of Session Management.  Q.5 (a) What is HQL? How does it differ from SQL? Give its advantages. (b) Explain the action tags used to access the JavaBeans from a JSP page vexample.  OR  Q.5 (a) Draw and explain the architecture of Hibernate.	Total Marks: 70	
each type of JDBC connection.  (b) Explain JSF Standard Component in detail.  Q.2 (a) Explain the use of PreparedStatement with appropriate example.  (b) What is filter? What is its use? List different filter interfaces with the important methods.  OR  (b) Write a short note on JSF Facelets.  Q.3 (a) What is Server Socket? Explain in detail with an example.  (b) Write a TCP Client-Server program to get the Date & Time details from Serventh on the Client request.  OR  Q.3 (a) What is Datagram Socket? Explain in detail with example.  (b) Write a UDP Client-Server program in which the Client sends any string Server responds with Reverse string.  Q.4 (a) Explain JSP Tag library with example.  (b) Explain Request and Response object in Servlet.  OR  Q.4 (a) Compare JSP with Servlet.  (b) Write a Java Servlet to demonstrate the use of Session Management.  Q.5 (a) What is HQL? How does it differ from SQL? Give its advantages.  (b) Explain the action tags used to access the JavaBeans from a JSP page vexample.  OR  Q.5 (a) Draw and explain the architecture of Hibernate.		
(b) What is filter? What is its use? List different filter interfaces with the important methods.  OR  (b) Write a short note on JSF Facelets.  Q.3 (a) What is Server Socket? Explain in detail with an example.  (b) Write a TCP Client-Server program to get the Date & Time details from Server to the Client request.  OR  Q.3 (a) What is Datagram Socket? Explain in detail with example.  (b) Write a UDP Client-Server program in which the Client sends any string Server responds with Reverse string.  Q.4 (a) Explain JSP Tag library with example.  (b) Explain Request and Response object in Servlet.  OR  Q.4 (a) Compare JSP with Servlet.  (b) Write a Java Servlet to demonstrate the use of Session Management.  Q.5 (a) What is HQL? How does it differ from SQL? Give its advantages.  (b) Explain the action tags used to access the JavaBeans from a JSP page wexample.  OR  Q.5 (a) Draw and explain the architecture of Hibernate.		07 07
<ul> <li>(b) Write a short note on JSF Facelets.</li> <li>Q.3 (a) What is Server Socket? Explain in detail with an example.</li> <li>(b) Write a TCP Client-Server program to get the Date &amp; Time details from Seron the Client request.</li> <li>OR</li> <li>Q.3 (a) What is Datagram Socket? Explain in detail with example.</li> <li>(b) Write a UDP Client-Server program in which the Client sends any string Server responds with Reverse string.</li> <li>Q.4 (a) Explain JSP Tag library with example.</li> <li>(b) Explain Request and Response object in Servlet.</li> <li>OR</li> <li>Q.4 (a) Compare JSP with Servlet.</li> <li>(b) Write a Java Servlet to demonstrate the use of Session Management.</li> <li>Q.5 (a) What is HQL? How does it differ from SQL? Give its advantages.</li> <li>(b) Explain the action tags used to access the JavaBeans from a JSP page vexample.</li> <li>OR</li> <li>Q.5 (a) Draw and explain the architecture of Hibernate.</li> </ul>	-	07 07
<ul> <li>Q.3 (a) What is Server Socket? Explain in detail with an example.</li> <li>(b) Write a TCP Client-Server program to get the Date &amp; Time details from Server the Client request.</li> <li>OR</li> <li>Q.3 (a) What is Datagram Socket? Explain in detail with example.</li> <li>(b) Write a UDP Client-Server program in which the Client sends any string Server responds with Reverse string.</li> <li>Q.4 (a) Explain JSP Tag library with example.</li> <li>(b) Explain Request and Response object in Servlet.</li> <li>OR</li> <li>Q.4 (a) Compare JSP with Servlet.</li> <li>(b) Write a Java Servlet to demonstrate the use of Session Management.</li> <li>Q.5 (a) What is HQL? How does it differ from SQL? Give its advantages.</li> <li>(b) Explain the action tags used to access the JavaBeans from a JSP page wexample.</li> <li>OR</li> <li>Q.5 (a) Draw and explain the architecture of Hibernate.</li> </ul>		
<ul> <li>(b) Write a TCP Client-Server program to get the Date &amp; Time details from Ser on the Client request.  OR  Q.3 (a) What is Datagram Socket? Explain in detail with example. (b) Write a UDP Client-Server program in which the Client sends any string Server responds with Reverse string.  Q.4 (a) Explain JSP Tag library with example. (b) Explain Request and Response object in Servlet.  OR  Q.4 (a) Compare JSP with Servlet. (b) Write a Java Servlet to demonstrate the use of Session Management.  Q.5 (a) What is HQL? How does it differ from SQL? Give its advantages. (b) Explain the action tags used to access the JavaBeans from a JSP page we example.  OR  Q.5 (a) Draw and explain the architecture of Hibernate.</li> </ul>	(	07
